

## OUR MAIN STREET SPRINGFIELD

MAIN STREET SAFETY PROJECT | 20th Street to 72nd Street

## ***Main Street Safety Project Draft Goals & Objectives and Upcoming Meetings***

### **Draft Goals & Objectives**

The project team drafted goals and objectives based on input received during the first round of community engagement and sought feedback from the Technical Advisory Committee, Strategic Advisory Committee, Planning Commission, City Council, and Main Street Governance Team earlier this spring. In presenting the draft goals and objectives, staff shared complete summaries of the input received during the first round of community engagement from the Strategic Advisory Committee, focus groups, online open house, and email/phone/in-person comments.

The project team has also made presentations at the following community group meetings:

- Springfield Chamber of Commerce's Government Issues Committee on March 12
- Springfield Board of Realtors on March 12
- Twin Rivers Rotary Club on April 12
- Springfield City Club on April 18

Staff is capturing feedback on the draft goals and objectives and refining them to ensure they reflect the overall input provided. The refined draft goals and objectives will be shared with the Technical Advisory Committee and Strategic Advisory Committee at their upcoming meetings.

### **Upcoming Meetings**

There are several project related meetings coming up. All are open to community members to attend.

- Technical Advisory Committee #4 on April 23
- Strategic Advisory Committee #3 on April 23
- Technical Advisory Committee #5 on May 7
- Planning Commission Work Session on June 4
- City Council Work Session on June 17
- Governance Team late June; date to be determined

For complete meeting details, agendas, and other related information please visit <http://www.mainstreetsafety.org>.

## Other Items

The project team is currently creating Frequently Asked Questions and the next project Fact Sheet. We will share them as soon as they are finalized. The project team is also working on the Future Baseline Transportation Conditions analysis and Economic Impact Literature Review. All documents will be posted the project website in the coming weeks.

## Stay Informed

If you know others who would like to be informed about the Main Street Safety Project and receive email updates, please send them to this link to sign up: <http://mainstreetsafety.org>.

## Project Purpose

Springfield's Main Street is consistently ranked as one of the most unsafe city streets in Oregon based on the severity and frequency of traffic crashes. The Oregon Department of Transportation and the City must address this problem to save lives, reduce injuries, and lessen property damage due to crashes. The purpose of the Main Street Safety Project is to select infrastructure solutions that will make Main Street safer for people walking, biking, driving, and taking transit.

The selected safety improvements will provide for the movement of goods and people, support the economic viability of the corridor, accommodate current bus service and future transit solutions, and complement traffic safety education and enforcement.
