Draft Facility Plan Ready for Your Review and Feedback

Based on direction from the City Council this past May, the project team has been working on a draft of the Main Street Facility Plan.

Review Draft Main Street Facility Plan

Feedback can be provided by:

- **Email:** info@ourmainstreetspringfield.org
- **Website Comment Form:** mainstreetsafety.org then select "Contact Us"
- **Public Meetings:** times and dates to be posted on mainstreetsafety.org
- **Mail:** City of Springfield, Attn. Main Street Safety Project, 225 Fifth Street, Springfield, OR 97477

You can review the draft Main Street Facility Plan and give feedback through October 25, 2021.

Check out [Fact Sheet #6 - Draft Facility Plan](#) for the main points and the overall recommendation, all the ways you can provide feedback, and the current project timeline. We are providing multiple ways to capture feedback so it is easy for community members to provide feedback at their convenience.

In addition to this e-update, we are mailing a postcard to businesses and property owners adjacent to the corridor about the draft Main Street Facility Plan. [Watch for this postcard arriving in your mail in the next few days.](#) We will also solicit feedback from the broader community via social media and the [project website](#).

Upcoming Meetings

The project team has scheduled final meetings with the Technical Advisory Committee (TAC) and the Strategic Advisory Committee (SAC) to review and provide feedback on the draft Main Street Facility Plan. The project team has also scheduled their next meetings with the Planning Commission, Main Street Governance Team and City Council to receive

direction on next steps.

- SAC meeting - Monday, Sept. 27 from 4:00 to 6:00 pm
- Planning Commission meeting - Tuesday, Nov. 2 at 6:00 pm
- Governance Team meeting - Monday, Nov. 14 from 2:00 to 3:30 pm
- City Council Work Session - Monday, Dec. 6 at 5:30 pm

All meeting agenda packets will be posted to the [project website](#) once finalized.

Project Purpose

Springfield's Main Street is consistently ranked as one of the most unsafe city streets in Oregon based on the severity and frequency of traffic crashes. The Oregon Department of Transportation and the City must address this problem to save lives, reduce injuries, and lessen property damage due to crashes. The purpose of the Main Street Safety Project is to select infrastructure solutions that will make Main Street safer for people walking, biking, driving, and taking transit.

The selected safety improvements will provide for the movement of goods and people, support the economic viability of the corridor, accommodate current bus service and future transit solutions, and complement traffic safety education and enforcement.
